

# World Environment Day 2017

## Tuesday 6 June

### 9.30am to 2pm

*Hosted by the Botanic Gardens of South Australia*

---

World Environment Day is an annual event hosted within the beautiful Adelaide Botanic Garden. World Environment Day is aimed at encouraging young South Australians to engage with the environment and issues currently impacting the globe.

It is a FREE event for South Australian students from Reception to Year 7 and enables students to connect lessons taught in schools with real world issues, solutions and practices.

Presenters from the Gardens, external environmental organisations and guests share their expertise and knowledge through short interactive sessions which are both pre-booked and drop-in style. Students rotate through selected activities.
